## **DETAILED ACTION**

### ***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 19-23, drawn to dispensing device.

Group II, claim(s) 24-25 and 39-40, drawn to dispensing device.

Group III, claim(s) 26-34 and 37-38, drawn to dispensing device.

Group IV, claim(s) 35, drawn to paper.

Group V, claim(s) 36, drawn to method for use of paper in a dispensing device.

The inventions listed as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: WO 93/04622 and DE-39 22 159 A1 discloses the special technical feature of a paper dispensing device comprised of a sprayer for spraying the paper with a fluid arranged adjacent an outlet of the dispenser such that only the dispensed paper is wetted. Therefore, there is no unity of invention when the special technical feature is present in the prior art. Hence, lack of unit is held by the examiner in accordance with PCT Rule 13. Also see MPEP 1850 – Determination of unity of Invention.

A telephone call was made to Attorney Soloway on 9/24/2008 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
